Experience

- Drupal developer at the University of Kentucky College of Arts & Sciences (The Hive). During this time I created and themed many websites, as well as managed content and completed help requests submitted by the faculty and staff. My full development portfolio can be found at www.ericgrucza.com.
- Technical support student worker for the University of Kentucky College of Arts & Sciences (The Hive). Installation of programs, setting up computers and printers, fixing or replacing hardware in both desktops and laptops, as well as completing help requests submitted by the faculty and staff.
- Spent 4 months living and studying Japanese popular culture in Hirakata-Shi, Osaka, Japan
- Editor-in-Chief of Never Know Tech. A self-created video game and technology news website. While the website was live, I created new content daily and received thousands of unique visitors a month. I also attended the International Consumer Electronics Show, the Electronic Entertainment Expo, and Penny Arcade Expo East. I also managed three writers and editors.
- Presenter at the University of Kentucky Undergraduate Writing Symposium in 2009.
- DJ at Bellarmine University internet radio. 2008 - 2009
